Hands on Test Questionnaire
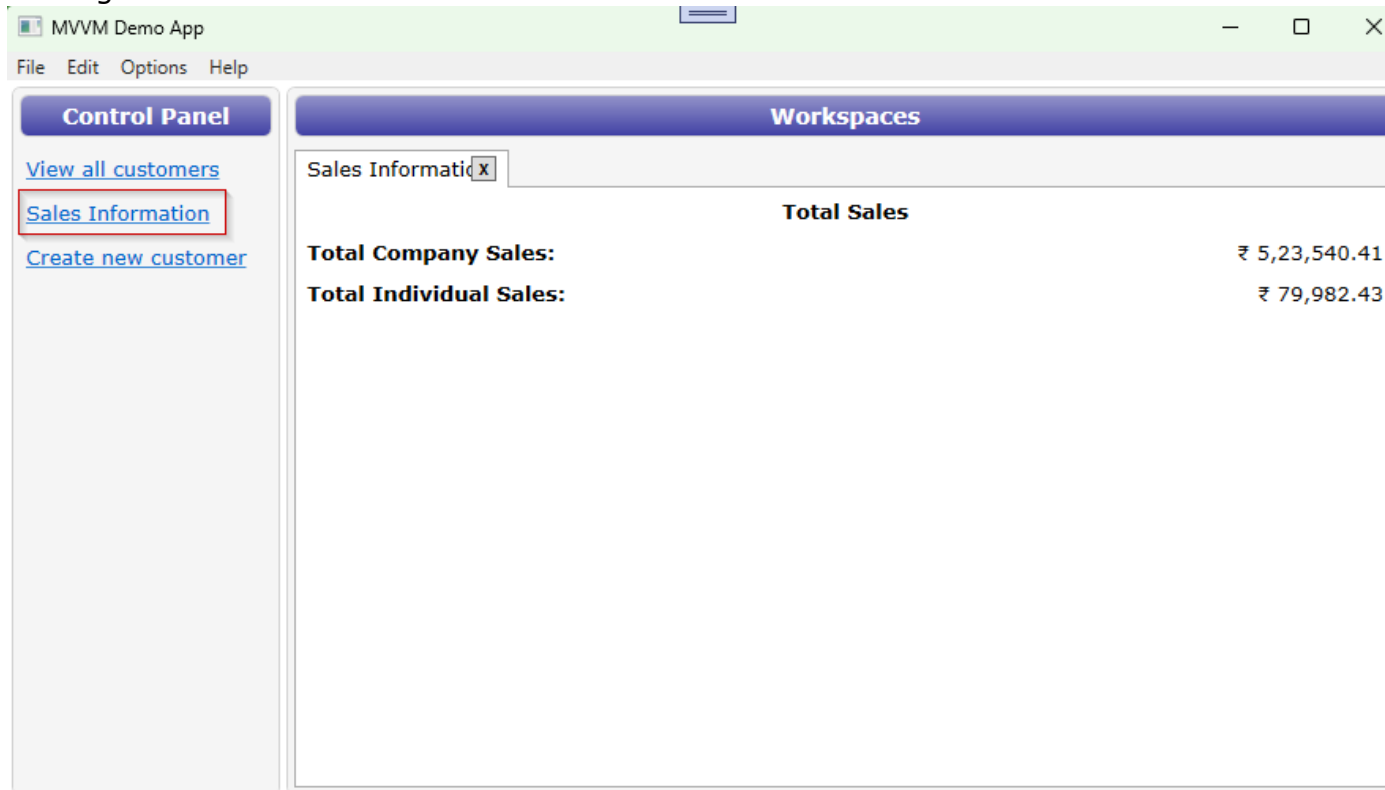

After familiarizing with the solution in , do the following:

1. There is an exception in one of the control panel menu items, find it and resolve it.
2. Add a new menu in "Control Panel" called "Sales Information", which will open another window and show the sales total based on the organisation.

3. Add a new column "Age" in the "All customers" window and populate the value based on the data.
